

## Creature Tables

The followers of Brixbrix and the members of the Hunter's Society understand the importance of quickly determining where you are in the Wildlands and knowing what kind of creature you may encounter there. Certainly **Brixbrix's Field Guide to the Creatures of Ados** helps the intrepid adventurer learn about the ranges and habitats of the unique creatures of Ados, but how useful is it to thumb through such a massive tome when a strange creature is quickly bearing down upon you? Identifying these creatures quickly can mean the difference between life and death.

While the main tome of the Field Guide contains an alphabetical listing of the creatures found within its pages, some members of the Hunter's Society felt that additional organization was needed to help adventurers. This folio was created to organize the creatures found within the Field Guide by several other means including by Range, Habitat, Creature Type, and by the relative Challenge Rating the Hunter's Society has crafted for each creature.

We hope these additional tables will serve you well in your travels.

## Good Hunting!
